BRIE's shoreline step does not balance sand at a sharp bend
The step, start and year 50
(a)
Shoreline position (m, seaward +)
start
BRIE as written
one rate
Alongshore (km, south to north)
Same boundary, two rates (year 0)
(b)
cell to the south
cell to the north
Rate used for that boundary (per 1,000)
13|14
14|15
15|16
16|17
17|18
18|19
19|20
Boundary between cells (south|north)
Total sand, nothing added
(c)
Sand made (+) or lost (−)
(m of summed shoreline)
BRIE, straight
BRIE, gentle 100 m bump
BRIE, 100 m step
one rate, 100 m step
Year
