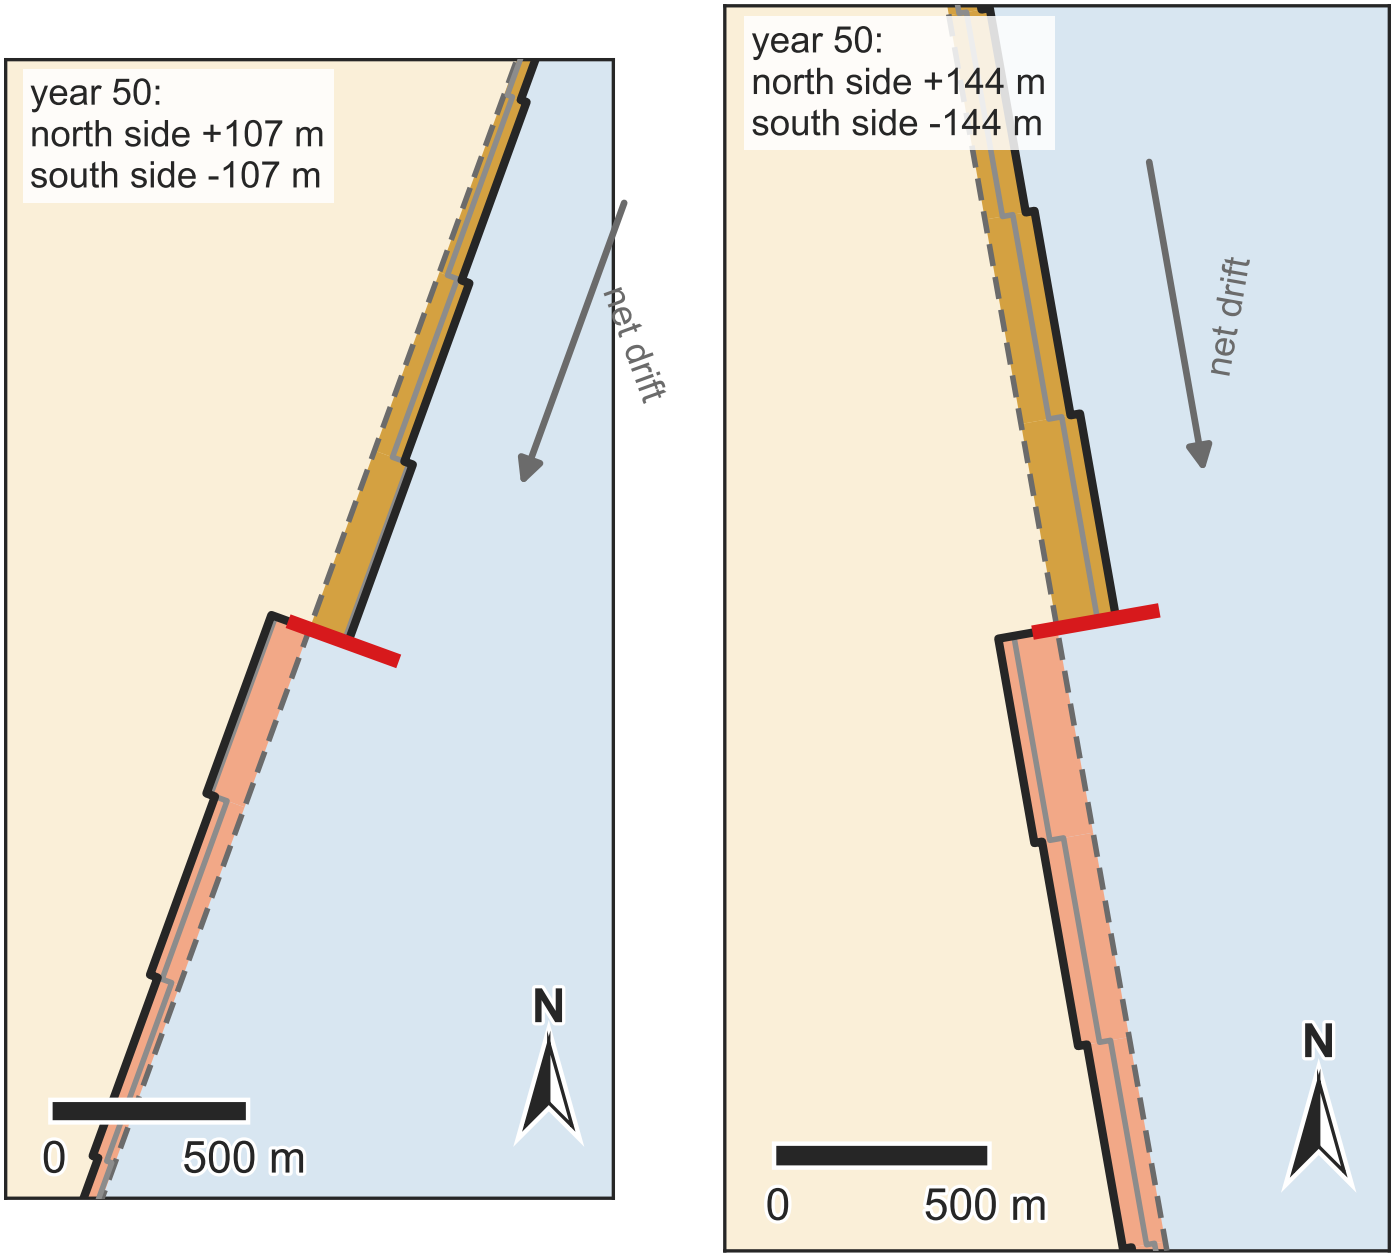
Wave-driven groin

Coast turned against the drift
(−20°)

Coast turned with the drift
(+10°)



Waves on every coast:
Hs 2 m, Tp 7.5 s, asymmetry 0.6, high-angle fraction 0.5

- start: a straight coast
- year 10
- year 50
- built out since the start
- cut back since the start
- groin (drawn 250 m)
