(a)
no wall: the island rolls back
shoreline and dune move together
ocean
(b)
wall built
wall: dune line can't move
crest floor
gap 30 m
(c)
shoreline retreats, wall holds
no overwash while
the crest tops the runup
storm
gap 8 m
(d)
gap reaches 0: shoreline held at the wall
wall repaired:
never fails
sand added each year
to hold the shoreline
